SOS/SSK is...

Carolyn Dalgliesh

Carolyn Dalgliesh founded Simple Organizing Strategies (SOS) to provide expert support and guidance for anyone who wants to develop an efficient, healthy, and streamlined living environment. With her passion for problem solving, healthy living and systems implementation, Carolyn is ideally suited to assist you with your project.

Carolyn founded Systems for Sensory Kids (SSK) to provide support to sensory children in the home. Sensory kids - like those with ADD/ADHD, anxiety disorder, OCD, sensory processing disorder, asperger's or high-functioning autism - need special organizing solutions. Through her personal experience and extensive research, she has developed simple, effective solutions that can make a powerful difference in the lives of sensory children and their families. Let Carolyn's SSK Sensory Organizing™ system help you create order in your home and give your child the structure he or she needs to thrive! Carolyn is a member of the National Association of Professional Organizers (NAPO) and a Certified Green Home specialist.
